DIGITALE, HYBRIDE & LIVE EVENTS

DIGITAL INTERPRETER HUB!

Location Frankfurt

We are now offering our digital interpreting hub in cooperation with our partner BBK Gesellschaft für moderne Sprachen mbH. Professionally equipped and based at our Frankfurt location, our interpreting studio features state-of-the-art booths that guarantee high-quality audio and streaming for your next digital or hybrid event.

Due to the current global situation, events, meetings and conferences are increasingly being held online to further reduce costs as well as contacts. To ensure smooth multilingual communication between participants, BBK places experienced conference interpreting teams

at your disposal, including specialists in Remote Simultaneous Interpreting (RSI). As a result, you can call in interpreters from outside at relatively short notice. This not only minimizes travel costs, but also conserves other (environmental) resources, because it provides access to language skills for specific subject areas regardless of your location.

G+B provides a full range of simultaneous interpreting technologies, tailored to your needs. With 8 locations throughout Germany, G+B can also offer comprehensive support on your own premises in combination with the hub.

Advantages of the Digital Interpreter Hub

- Shorter set-up times, fewer interpreting booths and on-site personnel
- Flexible resources available at short notice
- Parallel events can be run independent of their locations
- Nationwide access to a specialist interpreting team
- GDPR-compliant
- Direct "peer-to-peer" data connection
- 24/7 remote technical service
- BBK: 50 years of industry experience & language competence in over 70 languages
- GAHRENS+BATTERMANN: Inspire people through digital events
