DIGITAL SOLUTIONS

G+B Streaming Portal / G+B Event App

Our G+B Streaming Portal broadcasts your events, trade fairs or concerts live and turns passive spectators into active event participants!

The interactive user interface can be branded individually and CI-compliant and equipped with desired functions according to your ideas.

With our mobile event app or the alternative web app, you can integrate your participants into the digitalised event and create communicative added value.

Involve your event participants interactively in the event!
